

"SATANS SERPENTS FOREVER FOREVER SATANS SERPENTS"

I used to be a normal woman and I lived a normal life until I had a one-night stand that changed my life forever. He called himself "Santos" after the gang he solely devoted his entirety to called *Los Santos Serpents*. I grew up in a big city so I didn't care for gangs but for some reason this one was different. Santos and I met online, He was a 5'9 Mexican man who wore baggy clothes and had fluffy hair, He was quite slender and spoke Spanish. I remember when I spoke Spanish to him back, the gaze in his eyes changed.

He was in awe that a 5'2 skinny white girl could speak Spanish so angelically, I reminded him my mother was from Spain and taught me from a very young age which only seemed to spark his interest in me further. After initially meeting we decided to meet up with a couple of my friends and head out to a hookah lounge. Santos didn't seem to be a fan of my friends and asked if we could ditch them, Me being the fallen woman I was, agreed. Santos bought a few beers and we sat down in the parking lot of the hookah lounge. He began telling me a few stories of *The Los Santos Serpents* and rambled about his devotion to the gang. *Los Santos Serpents* is a Mexican gang that prides itself on drug deals and satanism. One of the things Santos mentioned was if you couldn't speak Spanish you weren't allowed to be recruited into the gang as they prided themselves in being fluent Spanish speakers. I became curious about *Los Santos Serpents* and how they operated or if they even existed.

Later that week, I went to my local library in search of answers behind *The Los Santos Serpents*. I read countless books that provided me with a small portion of information about *Los Santos Serpents* but I quickly learned the gang not only devoted themselves to the religion of Satanism but to a mystical female creature named *Empusa*. *Empusas* are the women of the gang, They are very carefully selected as they cannot be human, they are demi-goddesses. Empusas are shapeshifters who take on the body of

beautiful young women. Men of *the Los Santos Serpents* worship their Empusas by holding weekly showering ceremonies. The weekly showering ceremonies consist of all the men pleasuring the woman orally while the other women and children bathe her. Empusas are shapeshifters that can extend their bodies up to 10ft, They typically shapeshift into a snake-like body but are still human-like with a human torso and head during these showering ceremonies. At these showering ceremonies, men of the gang can choose to marry the Empusa with the approval of *The Serpent*. *The Serpent* is the leader of *The Los Santos Serpents* and father to one of the main Empusas whose name is Roxanne. I learned a little about Roxanne, I guess she is one of the most beautiful Empusas *The Los Santos Serpents* ever witnessed. Roxanne was claimed by two up-and-coming serpent men, One of them dropped out of high school to show his devotion to Roxanne. I learned that *The Los Santos Serpents* recruitment starts extremely young,

The Los Santos Serpents recruit runners as young as 6 years old. The younger children 6-12 years old simply sell drugs on the street and hide in the gutter and are mostly accompanied by another runner, They choose the pairs based on gender, So if you are a young 7-year-old boy, you will be accompanied by a 7-year-old girl. In Roxanne's case, since she was the daughter of *The Serpent*, She was put on the streets at a very young age

and accompanied by a young boy named *Richy*. *Richy* had become exceptionally fond of *Roxanne*. *Roxanne* had big chocolate brown eyes and curly long dark black hair, and her skin color was a mix of a black individual and a white individual, Her voice was soft and angelic, but the main thing she acquired which none of the other Empusas seemed to have was street smarts and the ability to become a drug runner herself. Roxanne played with guns her entire life and by 13 years old *Roxanne* was fully trained and equipped to shoot a M2 machine gun. Her father also known as *The Serpent* trained *Roxanne* with military-style guns and weapons from a young age knowing she'd become a killing machine for the gang. *Roxanne* was not only a demi-goddess shapeshifter but she also had the training and brains as

much of the other serpents within the gang which made her a prized possession among the community of *the Los Santos Serpents*. After burying my head and mind in research I uncovered the location of where *the Los Santos Serpents* hid. *The Los Santos Serpents* hid in the depths of a forest inside Mexico, The gang resided in an area where only lost demi-goddesses could potentially be uncovered as *Los Santos Serpents'* belief is that they gained more power and secrecy with demi-goddess shapeshifters on their side. *The Los Santos Serpents* had ties with the military, law enforcement, and government officials. Some of the highest-paid serpents would receive up to \$36,000 per drug run if the run went smoothly and all substances were accounted for. As the years went on, *Richy* and *Roxanne* became older and gained more status for the gang. By the time *Richy* was 16 years old, he was one of the head serpents for the gang and *Roxanne* was known as one of the most beautiful Empusas who ever lived. One of the main rituals that took place during the showering ceremonies was the bedazzling of the lower body. *The Los Santos Serpents* believed in recognizing the power and beauty of each Empusa. So during every showering ceremony, each Empusa will receive a layer of jewels on the vagina to symbolize a demi-goddess status and once the layers of jewels are completely covering the Empusa's lower body, she can marry a serpent. If you were a *serpent and you happened to become infatuated with an Empusa, you could request to marry her. If the Empusa is already chosen by a serpent, both serpents will go on separate drug runs and whichever serpent brings back the most money from the drug run will be able to marry her.* Most *Los Santos Serpents* marriages only last 6 months to a year. In *Roxanne*'s case, she was set to marry *Richy*, the both of them had already had countless rituals professing their love to one another. *Richy* talked about *Roxanne* in a way of worship, For every showering ceremony he was the first to line up and please her. Although the serpents didn't simply believe in pleasuring solely Empusas, *Los Santos Serpents* believed in mass pleasure for both men and women. The younger and lower your rank was within the gang meant that you had

to please whoever was above you. Most serpent men would orally pleasure the serpent men above them during these showering ceremonies as well. *The Los Santos Serpents* believed pleasure was a manipulation tactic and used the tactic vigorously. If you declined to pleasure above you, you'd be looked down upon and most likely would be given worse drug runs. *Los Santos Serpents housed close to 8 Empusas*, each of them hand-picked by

The Serpent himself. Each Empusa had been tested beforehand to be certain she was a mystic creature. Every Empusa needed to have the body of a snake but still in human form and the head of a young human woman. The Serpent followed a very strict satanic religion and strongly believed in witchcraft and the crossroads. *The Serpent* dedicated himself to *Lucifer* and incorporated him into much of his religion. I read and read, the further I

got, the more I found out, It was all so phenomenal. People dedicated themselves to this gang or community known as *The Los Santos Serpents*, I could understand why people wanted to join, It was the in-between a cult and gang, there was money involved, but also magic, and the very very dark kind. I learned as well, The 7 layers of hell are real. So are demi-gods and demi-godess. It's simply just not talked about. After that one-night stand, I was opened to a new type of world. One where many don't believe in until they have seen it and let me tell you, It was incredible both in good and bad ways. All I can say for now is I certainly won't be normal again, not with the knowledge behind and reading stories of the *Los Santos Serpents*.
